

Last week you heard about how ACS Day at the Ballpark is going virtual. In addition, we highlighted some key milestone dates to help keep the process moving in regard to the transactions that were already placed the past several months with ACS Day at the Ballpark. As promised, here are the survey links that we are asking everyone to fill out:

For the Missouri Game: <https://www.surveymonkey.com/r/MOOptions>

For the Illinois Game: <https://www.surveymonkey.com/r/ILOptions>

Here are some important comments around the survey:

- **Only complete this survey if you purchased ACS Day at the Ballpark tickets from the American Cancer Society directly via the website**
- If you purchased tickets for ACS Day at the Ballpark from an individual selling tickets, please contact that individual directly
- If you are a ticket seller (meaning you are selling tickets to a bunch of people – like how girl scout cookies are sold) please fill out the survey only once
- If you purchased tickets for both the Missouri & Illinois games, you will need to fill out a survey for both. **IMPORTANT**- the survey links are different (see above)

As noted, we will collect this information and start the process to refund, contact ticket buyers, etc. around the July 15th date. Please have patience as we work through this process as fast as we can with limited staff.

The Virtual ACS Day at the Ballpark information will be sent out very soon. We hope you will be able to join us in this fun new event where you'll have the opportunity to earn cool prizes including game tickets, private chats w/ players, and much more.

As always find all the latest information on the MO & IL ACS Days at the Ballpark Facebook event pages and on the website www.acsdayattheballpark.org
